

YHG Procurement Pipeline – at August 2023

Please note the following when reviewing this pipeline:

The projects, categories and dates below are subject to change **at any time**.

The “Target Commencement Date” is the anticipated time from which Procurement will begin to review the market and prepare a procurement strategy **NOT** the date that a tender will be issued. Procurement will potentially review the market and begin preparing a strategy months ahead of a Contract Notice, Mini-Competition or Quotation being issued.

All categories are subject to change depending on business demand and YHG reserves the right to amend this pipeline at any time by adding or removing categories.

These categories vary in value both below and above the Procurement thresholds (as at January 2022).

This pipeline will be updated on the website at least annually.

Not all categories will be procured on open tender basis. YHG does make use of third-party procured Framework Agreements as well as running our own quotation exercises for below threshold procurements. When not using a Framework Agreement, above threshold procurements run by YHG will be advertised on Find a Tender Service (<https://www.gov.uk/find-tender>).

YHG uses the MyTenders portal (www.mytenders.co.uk) as its e-Sourcing platform. It is free for suppliers to register on both Find a Tender Service and MyTenders.

Category	YHG Department	Target Commencement Date
